

Guilty Kisses

Ilya

Please look at me your eyes, say much
Please look at me your eyes, say much
I look forward to moving to our new place
Cozy, fireplace, bedroom set
Perfect little family, in a perfect little home

Maybe things will be different then
Maybe your kisses will be guiltless then
Your kisses are guilty kisses

Please look at me your eyes, say much
Please look at me your eyes, say much

Your kisses are guilty kisses
Have you been disloyal, I sense something is wrong
Your kisses are guilty kisses
You've been disloyal, something is definitely wrong

Maximum occupancy is two
Take your meaningless belongings and pathetic self out of this
home

Please look at me your eyes, say much
Please look at me your eyes, say much

The new place may feel less cozy
And my bed may be too large and lonely
But the fireplace will keep my son and I warm
We'll bury our unhappy memories of you in the ash pile

Farewell stranger
Farewell guilty kisses
Farewell denial
Farewell

Please look at me your eyes, say much
Please look at me your eyes, say much
