

I Want To Know

Ilya

So alone, I can't feel my heart
Truth be told I'm falling apart

She cuts right into me
I'm waiting for everything (anything you say)
We sing in harmony
But I can't have her heart

Your light leaves my eyes and takes my soul who are you
Your light leaves my eyes and takes my soul who are you
Where, where did you come from I want to know
Where did you come from I want to know

I'm the fool who looked in your eyes
I saw your soul, please look into mine
