

Blame

I.M

What is it that you really wanna say?
I cannot get this over
Smoking all the pain to feel you deeply again
Hope I never get sober

Every moment when I breathe
I feel you deep inside of me
Why're you tryna leave?
There's nothing more that I need

You know that I'm loyal
Gave everything to you
Jinannaldeuri moyeo
Jigeum api an boyeo

Seuchyeo jinagadeusi haji ma byeolgeo anin deusi
Nal dameun nuneun imi tumyeonghae jeonbu ijeun deusi

Gipge nareul chajihaneun neol
Ije kkeonaeryeo hae bwado replay
It's hard to forget your big shade, my lover
Gipge neoreul chajihaneun geon
Ijen naega anieodo keep waiting
Or maybe just blaming

What is it that you really wanna say?
I cannot get this over
Smoking all the pain to feel you deeply again
Hope I never get sober

Every moment when I breathe
I feel you deep inside of me
Why're you tryna leave?
There's nothing more that I need

What is it that you really wanna say?
I cannot get this over
Smoking all the pain to feel you deeply again
Hope I never get sober

Every moment when I breathe
I feel you deep inside of me
Why're you tryna leave?
There's nothing more that I need

Can I be wylin' when I'm waiting?
'Cause I feel drowning when I'm waiting
You're my reason why I blame on your name
Do you even feel my pain what you made?

Don't leave me alone, my love
I don't have my own and you know
You're my all, my home but gone
Don't leave me alone, my love

What is it that you really wanna say?
I cannot get this over

Smoking all the pain to feel you deeply again
Hope I never get sober

Every moment when I breathe
I feel you deep inside of me
Why're you tryna leave?
There's nothing more that I need

You know that I'm loyal
Gave everything to you
