

## Bust It

I.M

Bust it down for my life like it's last time  
Keep it up 'til my blood is on the ground  
Bust it down 'cause I want this sound out loud  
Give me all your doubts  
I can make them face down  
Bust it down for my life like it's last time  
Keep it up 'til my blood is on the ground  
Bust it down 'cause I want this sound out loud  
Give me all your doubts  
I can make them face down

Cannot stop when I'm around bouncing with this  
Imitating what I.M like, can't be like me  
Fuck that, I ain't follow money, make them chase me  
You can't never stop my 9-11 Porsche  
I ain't afraid to face it, let me eat  
No celebration give me that, I'm greedy  
Don't wanna hesitate, my time is money  
Working on weekend, you can't get my attention

Bust it down for my life like it's last time  
Keep it up 'til my blood is on the ground  
Bust it down 'cause I want this sound out loud  
Give me all your doubts  
I can make them face down  
Bust it down for my life like it's last time  
Keep it up 'til my blood is on the ground  
Bust it down 'cause I want this sound out loud  
Give me all your doubts  
I can make them face down

Who you? Know me?  
But you're making rumor's again  
You can't even talk out when ya face me, now ya praisin'  
I'ma keep it straight, ain't no back, check my widget  
Ain't no time to hate, why you mad?  
I feel so blessed  
I'll be bussing with my brothers  
Do I have to know you?  
VVs is nothing to me, that can't make me glow  
Think you gotta know yourself before ya chirpin'  
I gotta go for work my babies waiting  
Bust down, my life is so blessed, don't need a ice  
You're still buying that ain't you raising my price  
How can I close my eyes? Don't wanna waste this  
You know life is just once, I'ma keep bust down

Bust it down for my life like it's last time  
Keep it up 'til my blood is on the ground  
Bust it down 'cause I want this sound out loud  
Give me all your doubts  
I can make them face down  
Bust it down for my life like it's last time  
Keep it up 'til my blood is on the ground  
Bust it down 'cause I want this sound out loud  
Give me all your doubts  
I can make them face down
