

Happy To Die

I.M

I could die right now
I can never lie
You bring me to sky
Let me be yours 'till I die

When you say good bye
Bury me on your heart
Don't you say that word
Could you keep it 'till I die

You brought me back to the real love
I wanna get lost here forever
You brought me back to the real love
I wanna get lost here forever

But don't you change
When I'm low
Could you make me not alone?
