Skyline

I.M

Waving on the sky, movin', touchin' all the time
You just have to climb, baby, I can make you high
Give me the lead, you can leave the wet sheets
'Cause we're feelin' so deep and I like that
Waving on the sky, movin', touchin' all the time
You just have to climb, baby, I can make you high
Give me the lead, you can leave the wet sheets
'Cause we're feelin' so deep and I like that

We've been talking something personal
But I can't just keep talking, I ain't gentle
Pretty late to drink this bottle
Feel what you need, so just leave it to me
We both want so tight, so just leave the light so bright
Love your number five, wanna tell you what I like
You don't have to hide and I know your body wants me
Feel what you need, so just leave it to me

Waving on the sky, movin', touchin' all the time
You just have to climb, baby, I can make you high
Give me the lead, you can leave the wet sheets
'Cause we're feelin' so deep and I like that
Waving on the sky, movin', touchin' all the time
You just have to climb, baby, I can make you high
Give me the lead, you can leave the wet sheets
'Cause we're feelin' so deep and I like that

All day, all night, we will take this so wild
I see you shy, oh, that makes me on fire
Can't nobody fuck you like me, baby, hold this vibe, yeah
There's no reason to lie, baby, I can read your mind, yeah
It doesn't matter if you have some flaws
'Cause you are the one where I should belong
Take off your bad thoughts like I took your shirts off
Feel what you need, so just leave it to me, yeah

Waving on the sky, movin', touchin' all the time
You just have to climb, baby, I can make you high
Give me the lead, you can leave the wet sheets
'Cause we're feelin' so deep and I like that
Waving on the sky, movin', touchin' all the time
You just have to climb, baby, I can make you high
Give me the lead, you can leave the wet sheets
'Cause we're feelin' so deep and I like that
