

Alien

Ima Robot

Cool kids out in the yard
I wanna be down, I just wanna hang
I'm new here and it's hard to make friends
They turned around guess what they said?

You look like an alien
You look like an alien

A horror inside grew
And grew
And I cried
And I felt all alone
In this world so alone
Oh mom, they called me an alien
Hey mom, they say I'm an alien

Alex don't look like any of us
How come he don't look like any of us?
Alex don't look like any of us
How come he don't look like any of us?
Alex don't look like any of us
How come he don't look like any of us?
Alex don't look like any of us
How come he don't look like any of us?

Xenophobia

I'm older now and I just want some love
But I don't wanna go insane like you
I'm smart enough to be talkin' to dogs
Honest enough to say people suck

Well, I must be an alien
I must be an alien
But it's alright it's ok
Because I know one day
I'll return
When they come
When they come
When they come
Oh, I'll be so glad I'm an alien
Oh, I'm so glad I'm an alien

Alex don't look like any of us
How come he don't look like any of us?
Alex don't look like any of us
How come he don't look like any of us?
Alex don't look like any of us
How come he don't look like any of us?
Alex don't look like any of us
How come he don't look like any of us?
