

Climaxing

Ima Robot

Well, people say
That the time is at hand
Getting closer every day
Living in our fairy-tale land
So let's let's do drugs
And let's make love
We'll be climaxing
When the Armageddon comes

The dough
The glow
The show
The girls
The ex
The sex
The nights
The fights
The feels
The thrills
The pills
The chills
I close my eyes
And hide away
The hair, your face
Forget this place
We'll go to waste
And be erased
The smell of life
Is in the air
We'll cry, we'll fly
Without a care

People say
That the time is at hand
Getting closer every day
Living in our fairy-tale land
So let's let's do drugs
And let's make love
We'll be climaxing
When the Armageddon comes

I want to stop
Somebody help
It's all a lie
I've lost myself
This rollercoaster
Has me stuck in
The world spins on
Nothing has happened
So while lie I here
In deep my mind
It tastes so bad
Depression's the new fad
If all is wrong
I sing my song
I fall and lie
And move along

People say
That the time is at hand
Getting closer every day
Living in our fairy-tale land
So let's let's do drugs
And let's make love
We'll be climaxing
When the Armageddon comes

When it comes comes comes
When it comes comes comes
When it comes comes comes
