

# Pink Monkey

Ima Robot

Ahh...

This one's for you, baby...

Pink monkey  
You are the one  
Pink monkey  
Here I come

Pink monkey  
You taste like a peach  
You're wild at heart  
And soft underneath

Well, rile me up too much, sugar  
And you're liable to get smacked  
You bring me next to god just like a  
H-heart attack

And through it all  
My pink monkey stays right here on my back  
It feels just like the movies  
But I tell ya this ain't no act

Oh, I tried before to leave her  
But it just didn't work out  
I missed her legs wrapped around me  
The way I'd make it shout

So we're back together  
She's the habit I can't kick  
I'm not talking 'bout drugs  
Though she's dope, you might call it a shit  
We see the lightning...

Well, I like you cause you're crazy like me  
The way we get sometimes is frightening  
And no one can understand our world  
Nah, my monkey and me, we see the lightning

Well, I like you cause you're crazy like me  
The way we get sometimes is frightening  
And no one can understand our world  
Nah, my monkey and me, we see the lightning  
(Yes we do)

Pink monkey  
You are the one  
Pink monkey

Pink monkey

You're wild at heart  
And soft underneath

Well, rile me up too much, sugar  
And you're liable to get smacked

You bring me next to god just like a  
H-heart attack

And now  
All of my monkeys, she stays right on my back  
It feels just like the movies  
But I tell ya this ain't no act

Now we're back together  
Oh, she's the habit I just can't kick  
I'm not talking 'bout drugs
