

Search And Destroy

Ima Robot

Carnal intent
You are ever my friend
Civilized men tried to kill you, heheh
So we will call it defense

Search and destroy
It knows no future
The illness has come
Destroy and be saved
Run humans, run
There's no future
Burning out on the sun
Destroy and be saved

Burning this love (it's love, it's love)
Burn the radiant flesh (it's love, it's love)
Destroy and be saved (it's love, it's love)
Don't you ever repent (it's love, it's love)

Damage is done
(Waste of future?)
The illness has come
(I can't so near?)
(The atom has gone?)
There's no future
And the humans have won
(I can't see it for me?)

Ah
Ah
Ah
It's just a game, it's just a game
Playin' the game
Playin' the game to win, or play it to lose
It's up to you

Because the damage is done
(I can't save you?)
For the illness has come
(You can't destroy?)
(And the cure is gone?)
There's no future
'Cause the humans have wooooon...
