

Shine Shine

Ima Robot

I had a bad dream, no problem my heart is healing
Violets, too violet oh, my love
And we'll walk through dark days, and we'll see through murder
From my heart, my body till there's love

Ooo, I found a summertime
From when the sun don't shine and I can always find
The shine shine, the shine shine
The shine shine

Ooo, love will lead us home
Ooo, love will lead us home

You had a bad day, no problem, you'll see I am with you
Our hearts, two flowers oh, my love
And we'll walk 'neath dark clouds, and we'll see through murder
Violets, too violet oh, my love

Ooo, there's a summertime
It's living in your mind, and we can always find
The shine shine, the shine shine
The shine shine

Ooo, love will lead us home
Ooo, love will lead us home

Ooo, there's a summertime
It ain't just in your mind, you know we'll always shine
The shine shine, the shine shine
The shine shine

The shine shine (you can always shine), the shine shine (you can always shine)
The shine shine (the shine shine)
The shine shine (you can always shine), the shine shine (you can always shine)
The shine shine (the shine shine)

Ooo, love will lead us home
Ooo, love will lead us home
