

Winter Fling

Ima Robot

Will you be my winter fling
Now that Summer's warmth is gone?
I'll be yours right up till spring
Hold me tight all winter long
It's true L.A. don't get cold
Not like New York or Chicago
But that chill has still crept in
So will you be my winter fling?

Will you be my winter fling
Now that Summer's warmth is gone?
I'll be yours right up till spring
Hold me tight all winter long

The Santa Annas blew their last wind today
The warm jets have all been turned off
And all the cool things I said in May
The summertime sun must have burnt off
For now September clouds my mind
And my heart longs for you again
Blame it on natural design
Now will you be my winter friend?

Will you be my winter fling
Now that Summer's warmth is gone?
I'll be yours right up till spring
Hold me tight all winter long

Will you be my winter fling
Now that Summer's warmth is gone?
I'll be yours right up till spring
Hold me tight all winter long

Will you be my winter fling?
Will you be my winter fling?
Will you be my winter fling?
Will you be my winter fling?
Will you, oh?

Will you be my winter fling
Now that Summer's warmth is gone?
I'll be yours right up till spring
Hold me tight all winter long

Will you be my winter fling
Now that Summer's warmth is gone?
