

# Silver Lining

## Imaginary Cities

[Verse 1]

Tainted heart from a dangerous start  
Hanging out on a string  
Good things come as winter's followed with spring, ooh

[PreChorus]

In the lining, in the silver lining  
I can breathe the truth  
Slow, impatient  
Keep a steady pace in you

[Chorus]

There's nothing that you can do  
Pressure builds to come down on you  
There's nothing that you can say  
Stand up now, you could walk away  
Can't replace with a synthesizer  
They don't mean none the wiser  
Get back to the day today  
Don't stand up don't walk away

[Verse 2]

Blood ran cold when the rain took hold  
And the fire died in you  
They pushed you hard, but they pushed too far to get through, ooh

[Prechours]

In the lining, in the silver lining  
I can read the tune  
Slow, impatient  
Keep a steady pace in you

[Chorus]

There's nothing that you can do  
Pressure builds to come down on you  
There's nothing that you can say  
Stand up now, you could walk away  
Can't replace with a synthesizer  
They don't mean none the wiser  
Get back to the day today  
Don't stand up don't walk away

There's nothing that you can do  
Pressure builds to come down on you  
There's nothing that you can say  
Stand up now, you could walk away  
Can't replace with a synthesizer  
They don't mean none the wiser  
Get back to the day today  
Don't stand up don't walk away

There's nothing that you can do  
Pressure builds to come down on you (down on you)  
There's nothing that you can say  
Stand up now, you could walk away (walk away)  
Can't replace with a synthesizer  
They don't mean none the wiser (none the wiser)

Get back to the day today  
Don't stand up don't walk away
