

# Black

Imagine Dragons

When I see myself in my reflection  
Can I bring it back again?  
Or will it hunt me down, haunt me out  
I take it for the good of it  
I take it for the sake of it

When I take a look at my complexion  
All I see is scars and shame  
Oh, can you love me down, burn me out  
I take it for the good of it  
Oh, I take it for the sake of it

After all that we've been through  
Can I bring it back to you  
Can I take it back  
After all that we've been through  
Can I take it back  
Let it fade to black

See, it comes down to perception  
Matters what you look to see  
Oh, will it break me down, shake me out  
Oh, I take it for the good of it  
I take it for the sake of it

You keep on saying it's correction  
But is it what I want to see  
Oh, you can teach me all that built me up  
And I take it for the good of it  
I take it for the sake of it

After all that we've been through  
Can I bring it back to you  
Can I take it back  
After all that we've been through  
Can I take it back  
Let it fade to black

After all that we've been through  
Can I bring it back to you  
Can I take it back  
After all that we've been through  
Can I take it back  
Let it fade to black
