Imagine Dragons

(You know how we do)

I want a new world without the order I wanna resurrect and live a little shorter I want it heavy, I want the fury I wanna beat it out the judge and the jury

From the outside everything looks right From the outside, from the outside From the outside everything looks right From the outside, from the outside

We are, we are the face of the future We are, we are the digital heartbeat We are, we are the face of the future We don't wanna change We just wanna change everything

Eh, eh, eh, eh Digital, digital Eh, eh, eh, eh Digital heartbeat Eh, eh, eh, eh Digital, digital We don't wanna change We just wanna change everything

I want a new world without the order I wanna resurrect and live a little shorter I want it heavy, I want the fury I wanna beat it out the judge and the jury

From the outside everything looks right From the outside, from the outside From the outside everything looks right From the outside, from the outside
