Imagine Dragons

All my life I've been sittin' at the table
Watchin' them kids, they're living in a fable
Looks, luck, money and never left a 'wishin'
But now it's about time to raise up and petition

All my life I've been sittin' at the table
Watching them kids, they're living in a fable
Looks, luck, money and never left a 'wishin'
Now it's about time to stand up and petition

'Cause I've been wondering
When you're gonna see I'm not for sale
I've been questioning
When you're gonna see I'm not a part of your machine
Not a part of your machine

I'm not scared of what you're gonna tell me
And I'm not scared of the beast in the belly
Fill my cup with endless ambition
And paint this town with my very own vision

I'm not scared of what you're gonna tell me
And I'm not scared of the beast in the belly
Fill my cup with endless ambition
And paint this town with my very own vision

'Cause I've been wondering
When you gonna see I'm not for sale
I've been questioning
When you gonna see I'm not a part of your machine
Not a part of your machine
I am the machine

I am the machine

'Cause I've been wondering
When you gonna see I'm not for sale
I've been questioning
When you gonna see I'm not a part of your machine
Not a part of your machine

'Cause I've been wondering
When you gonna see I'm not for sale
I've been questioning
When you gonna see I'm not a part of your machine
Not a part of your machine
I am the machine
