

## Start Over

Imagine Dragons

Clenched teeth, no words  
All this distance taking its toll  
Speaking volumes  
Silence screaming over your words  
I never did you right, I know that  
Too many sleepless nights, I own that  
I said it time and time, I know that  
I wanna try again

Can we start over?  
Can we start over?  
Can we start over  
Before it's over, over?

Cold nights, cold sheets  
One more lonely empty hotel room  
What I'd give to  
Find my way back into you  
I never did you right, I know that  
Too many sleepless nights, I own that  
I said it time and time, I know that  
I wanna try again

Can we start over?  
Can we start over?  
Can we start over  
Before it's over, over?  
Can we start over?  
Can we get closer?  
Can we start over  
Before it's over, over?

Come alive, come alive, come alive again  
Come alive, come alive, come alive again  
Come alive, come alive, come alive again  
Come alive, come alive, come alive again

Can we start, can we start over?  
Can we start over?  
Can we start over  
Before it's over, over?  
Can we start over?  
Can we get closer?  
Can we start over  
Before it's over, over?
