

So Be It

Imago

Your will not mine
Your will not mine

Be It done, be it done in your time

I tiptoe around your unlikely reasons
I wish for something more
Was I right in needing

Say the time and place I will do it
In the maze of your heart I'll be there.

Your will not mine
Your will not mine

Be It done, be it done in your time

I'm chasing an empty argument
You know I'm spent
I feel your love and it burns what I don't need.

Your will not mine
Your will not mine

Be It done, be it done in your time

Everthing that you do
You're the thought that just keeps me coming
Back to you

Everytime that I fall the love
Is all that will keep me calm.
