

Spinning Around

Imany

I found a way to cope with pain
And I don't need to sleep my veins.
Oh I don't wanna talk again
Just drink away my sorry cell.
Maybe tonight, won't hurt so bad,

And while the room is swirling around
I hear the music in the background

My head is spinning around,
My head is spinning around.

I don't know how to deal with shame
In fact I think I'll drink again.
Night after night it feels the same
He's just awaiting on the pain.

And while the room is swirling around
I hear the music in the background

My head is spinning around,
My head is spinning around.

May be tonight, won't hurt so bad,
Maybe all your lies, won't sound so sad.

And while the room is swirling around
I hear the music in the background

My head is spinning around,
My head is spinning around, and round.

I found a way to cope with pain
And I don't need to sleep my veins.
No I don't wanna to explain
I just don't wanna go insane

And while the room is swirling around
I hear the music in the background

My head is spinning around,
My head is spinning around, and round, round, and round.
