

# Game Changer

Imelda May

Black dog keeps hounding me  
Waiting to take me down  
I fed her once to bide my time  
But the bitch keeps hanging 'round  
You bit the hand that fed you  
You let the lion loose  
I held my tongue for way too long  
But now there's no excuse

This is the game changer  
I'm not afraid of danger  
I ain't backing down, there's no turning around  
This is the game changer

Freedom came found me  
And knocked upon my door  
White light surround me  
Pick my head above the floor  
Take me home, please take me  
And lead me by the hand  
Break the lies that bind me  
And show me the promised land

This is the game changer  
I'm not afraid of danger  
I ain't backing down, there's no turning around  
This is the game changer

My body can be broken  
But the spirit can't be killed  
And you can change the game, my friend  
But I'll be stronger still

I am the game changer  
I am the game changer  
I ain't backing down, there's no turning around  
I am the game changer

I am the game changer  
I'm not afraid of danger  
I ain't backing down, there's no turning around  
I am the game changer  
I ain't backing down, there's no turning around  
I am the game changer

I am the game changer
