Immer

Devil has site not far from here  
Holy war is hangs in the air  
Glory and honour is die for allah  
Pagans and incredulous send to hell

Thosand cultures - thousand gods  
Not at last wars, struggles and battles  
Battlefield are filled with dead bodies  
Everythink is other - you know it

You fraing in the hell

Devil is smilling, what do well him  
The best with god is excellent  
Race of people is destroying alone  
Suicide is in human nature

You Fraing in the hell  
The god is dead

Brooks of blood running from cross  
Lives go out as candles in the winds  
Bodies are breaking in blind of faith  
And devil whisper with smile

The god is dead
