

# Alleviate

## Imminence

Am I destined to wear these chains?  
Am I the one to blame?  
Why everything goes up in flames?  
Remind me once again

Tell me what you see  
I see fire burning desperately  
Don't let me, don't let me down  
Silence the, silence the sound

I feel my heart break apart  
Bursting into pieces under all the secrets  
When shadows fall and darkness calls  
Save me from myself and alleviate the pain, I

Hate that I feel like I'm lost  
That nothing ever change  
I'm tired of looking 'round rooms  
Where everyone's a stranger  
Am I doomed to make the same mistakes  
And put myself to shame?  
Like everything is just a game  
Alleviate the pain

Tell me what you see  
I see fire burning desperately  
Don't let me, don't let me down  
Silence the sound

I feel my heart break apart  
Bursting into pieces under all the secrets  
When shadows fall and darkness calls  
Save me from myself and alleviate the pain, I

Yeah

I feel my heart break apart  
Bursting into pieces under all the secrets  
When shadows fall and darkness calls  
Save me from myself and alleviate the pain

Am I destined to wear these chains?  
Remind me once again  
Why everything goes up in flames?  
Alleviate the pain
