

## Desert Place

### Imminence

Burn baby burn  
Burn it to the ground  
Turn baby, turn baby, turn  
Turn the other way

I don't remember  
How we ended up in this desert place  
I can't recall the moments  
That took away all the nights and days

Oh

Burn baby burn  
Burn me 'til my bones turns to ashes  
I made a mistake, I'm all up in flames  
100 degrees and I'm turning insane

I don't remember  
How we ended up in this desert place  
I can't recall the moments  
That took away all the nights and days

Oh

You are the light inside me  
Feel the fire, the fire that's burning  
You are the stars above me  
Feel the night, the night that's turning

Say you will remember  
Say you won't forget  
Break bones, burn bridges and reset

Say you will remember  
Say you won't forget
