Disappear

Imminence

I've said it a thousand times
I'm numb to the feeling
Been trying to find my way out
But I keep hitting the ceiling

So slow me down
And all the thoughts running through my mind
I couldn't see the signs
Break me down
'Cause the shadows of my own design won't be confined

The fireflies won't touch me now
Fade in, fade out
Disappear

Been trying to disappear
But I'm caught in the distance
I'm running as fast as I can
Now this is my last chance

So slow me down
And all the thoughts running through my mind
I couldn't see the signs
Break me down
'Cause the shadows of my own design won't be confined

The fireflies won't touch me now
Fade in, fade out
Disappear

Disappear into the darkness

Been trying to disappear
But I'm caught in the distance

The fireflies won't touch me now

The fireflies won't touch me now
Fade in, fade out
Disappear

Disappear
