

Heaven Shall Burn

Imminence

Bleed for me, let the streets run red
This is the sacrifice for your repentance
No hope for the hopeless
Wearing the mask of the martyr

When all hope is gone
And the end is nigh
The sound of a thousand cries
Tonight
Heaven shall burn
Heaven shall burn

I've eaten the lies
To feed all my demons
I'll cover my eyes
When the skies are burning
The time has come
To bleed as one
The suffering has just begun

When all hope is gone
And the end is nigh
The sound of a thousand cries
Tonight
Heaven shall burn
Heaven shall burn
Heaven shall burn

There's no finding a remedy
To the dark that festers in my heart
Just a bittersweet tragedy
When death is nothing at all

Heaven shall burn
When all hope is gone
And the end is nigh
The sound of a thousand cries
Heaven shall burn
