

# Keep Me

## Imminence

Don't know how I should breathe  
'Cause you're my oxygen  
You left me in the blue  
Can't believe that this is true  
Been on a dead end run  
Yeah, I've ignored the signs  
Out of breath from chasing you  
Can't believe that this is true

You asked your questions  
I told you my secrets  
I gave you my life  
You didn't even try to fight

Keep me safe and sound  
Let me keep the love I found  
Stay, won't you stay around  
You can keep me  
Keep me six feet under ground

I know that I'm not your  
One in a million  
Don't even try to deny  
You can run, but you can't hide

You asked your questions  
I told you my secrets  
I gave you my life  
You didn't even try to fight

Keep me safe and sound  
Let me keep the love I found  
Stay, won't you stay around  
You can keep me  
Keep me six feet under ground

Bury me, bury me, bury me  
With all your secrets  
Keep me, keep me, keep me  
Under the rest  
Bury me, bury me, bury me  
With all your secrets  
Keep me, keep me, keep me  
Under the rest

Keep me safe and sound  
Won't you keep me  
Keep me six feet under ground  
Keep me safe and sound  
Won't you keep me  
Keep me six feet under ground

Keep me (bury me, bury me, bury me)  
Won't you keep me  
Keep me six feet under ground  
Keep me (bury me, bury me, bury me)  
Won't you keep me

Keep me six feet under ground
