

# Up

## Imminence

There's something inside of me  
Spreading like wildfire

Blood overflowing my bones  
Drowning my heartbeat  
The temperature's rising  
And I catch a fever

And I fire up, up, up  
My heart is in overdrive  
And I can't stop

We can go, go, go 'til the lights go out  
We won't stop, we won't stop  
We're going up, up, up, not a shred of doubt  
Time is running and you're not keeping up  
Up  
Time is running and you're not keeping up  
Up

I need to cure the syndrome  
It's getting worse  
Someone call cease-fire

Blood overflowing my bones  
Drowning my heartbeat  
The temperature's rising  
And I catch a fever

And I fire up, up, up

We can go, go, go 'til the lights go out  
We won't stop, we won't stop  
We're going up, up, up, not a shred of doubt  
Time is running and you're not keeping up

My heart is in overdrive  
And I can't stop  
It makes me feel alive  
Yeah, it makes me feel alive

I need you like a gun to the head  
But I'll be dead before I ask for your help  
I need you like a knife in the back  
Time to take back everything you've said

I need you like a gun to the head  
But I'll be dead before I ask for your help  
I need you like a knife in the back  
Time to go back  
'Cause time is running and you're not keeping up

My heart is in overdrive  
And I can't stop

We can go, go, go 'til the lights go out  
We won't stop, we won't stop

We're going up, up, up, not a shred of doubt  
Time is running and you're not keeping up  
Up  
I need you like a gun to the head  
Up  
I need you like a knife in the back
