

## Flaming Sword of Satan

### Impaled Nazarene

Graverobbers, sodomites, charlatans  
Bloodsuckers, filthy rats, necrophiliacs  
Backstabbers, harlots, agitators  
The netherworld will shine again

Pig's blood drips from the walls  
Triplets born without heads  
Reflection of planet Mars  
War ever so evident  
When Venus hides her charm  
Bloodred nebula rises  
Poisons the nonbelievers  
Attacks without mercy

Flaming sword of Satan  
Fire eats mankind

Warmongers, lepers, necromancers  
Hanged me, lost souls, impostors  
Rapists, deniers, masturbators  
Your world is dead

Morning star the merciless  
Burns to give rebirth  
Salvation thru metling man  
Whips to kill again and again

Flaming sword of Satan  
Fire kills everything

Onward towards death  
Surrender your soul
