

## Fire It Up

Impellitteri

In your eyes a fire is burning  
A crucible inside  
You been down the road before now  
You won't be denied

Standing up to fight the battle  
It's always on your mind  
Mental vision makes it happen  
You've got to hold the line

Fire it up  
You been striving so long  
Living for the dream  
Fire it up  
You been pushing so far  
To drive you past the pain  
Fire it up  
Relentless heart will guide you  
To a further place  
Fire it up  
Now's your time for glory  
Your power wins the race

You've been fighting now for so long  
You've been grinding hard  
You've been stepping up for yourself  
Reaching for the crown

Fire it up  
You been striving so long  
Living for the dream  
Fire it up  
You been pushing so far  
To drive you past the pain  
Fire it up  
Relentless heart will guide you  
To a further place  
Fire it up  
Now's your time for glory  
Your power wins the race
