

Hell On Earth

Impellitteri

On the edge of misery, across the holy land
Violence, a killing spree, to make a stand
It's Hell, It's Hell, Hell on Earth

Every time that blood is spilled, tears and tragedy
Taken down or cast into captivity

One nation, goes to war, indignation, there's peace no more

I see the enemy, you see the victory, death to the innocents, a
travesty of morality

One nation, goes to war, indignation, there's peace no more
There's no winners, rich or poor, indignation, holy war

Lightning strikes the iron dome, raining from the sky
Running from the missiles, fleeing for your life

One nation, goes to war, indignation, there's peace no more
There's no winners, whether rich or poor, souls are dying in th
is holy war

It's Hell, It's Hell, Hell on Earth
