

# Masquerade

Impellitteri

I been standing tall out in Hollywood  
With my star on the boulevard  
I can do no wrong, I'm irresistible  
This face is gonna take me far

But you don't know me  
I'm your superstar  
You can't see me  
Not the real me

My persona living on the silver screen  
Got my Oscar and my Golden Globe  
But there's a dark side creeping deep inside of me  
And I'm never gonna let it show

Masquerade  
Cuz you can never know the real me  
Masquerade  
And you will never see the real me  
Masquerade  
Masquerade  
Masquerade  
Masquerade

You don't know me  
I'm your superstar  
You can't see me  
Not the real me

Yea, I'm your superstar  
I been standing tall out in Hollywood  
Just like Kevin, Bill and Harvey do  
I can do no wrong, I'm irresistible  
Got the power to keep it quiet too

Masquerade  
Cuz you can never really know me  
Masquerade  
And you will never see the real me  
Masquerade  
Cuz you can never know the real me  
Masquerade  
And you will never see the real me  
Cuz you can never really know me  
Masquerade  
And you will never see the real me  
Masquerade  
Cuz you can never know the real me
