

Power Grab

Impellitteri

Ripping apart the night
Chipping away the day
Giving it all a fight
Tearing it down this way
Bringing the fire power
Mercenaries rule
Taking it by surprise
Burning away the fuel

Can't you see the hammer's coming down
Don't you know the war machine is now

It's a power grab
When the nations falling down
It's a power grab
Take advantage of it now
It's a power grab
Gonna over run the soil
It's a power grab
To the victor goes the spoils

Tighten up the grip
Squeezing out the life
Crushing under foot
Kill and victimize
The enemy is weak
Their time is running short
Blood will fill the streets
From the valley to the shore

Can't you see the hammers coming down
Don't you know the war machine is now

It's a power grab
When the nations falling down
It's a power grab
Take advantage of it now
It's a power grab
Gonna over run the soil
It's a power grab
To the victor goes the spoils

It's a power grab
When the nations falling down
It's a power grab
Take advantage of it now
It's a power grab
Gonna over run the soil
It's a power grab
To the victor goes the spoils
It's a power grab
Now the signs are getting clear
It's a power grab
The war machine is here!
