

Superkingdom

Impellitteri

Get down on your knees
Bow down if you please
Accelerating changes, philosophy of mind
Computer simulations, evolution has arrived
All that glitters will never be gold

Fall down on your knees
You know the future is here
Get down on your knees
There is nothing to fear
Get down on your knees
A.I. Superkingdom is here
A.I. Your destination is clear

Artificial systems, controlling of the mind
Digital solutions, provocation by design
All that glitters will never be gold

Fall down on your knees
You know the future is here
Computer gods rule
There is nothing to fear
Get down on your knees
A.I. Superkingdom is here
A.I. Your destination is clear

Fall down on your knees
You know the future is here
Get down on your knees
There is nothing to fear
Bow down to machines
Computer gods rule
Get down on your knees
Cause now we're playing the fool
A.I. Superkingdom is here
A.I. Your destination is clear
