

Wonder World

Impellitteri

There's a new world order coming
There's nothing you can do
Everything about you
Is monitored and viewed

Biometric scan
Through the brain, on the hand
Scanning through your eyes
Tracking you down
Come on!
There's a new world coming!

Society now cashless
Control what you buy and sell
Commerce on your cell phone
The code will serve you well

Biometric scan
Through the brain, on the hand
Scanning through your eyes
Tracking you down

Wonder world
Computers taking over for you
Wonder world
Intelligence controller
Wonder world
Artificial mindset patrol
Wonder world
Dependence on the virtual machine

Wonder world
