

# New World Horror

## Impending Doom

We are the doomnation  
In a world hellbent on chaos  
To bring ashes and ruins  
We are the doomnation  
Immortality begins right now

I can feel my anger rising up!

Fearless in the the face of death  
The devils work is never done  
Fearless in the face of death  
You see the storm and ignore the war  
Welcome to the new world horror

The cowards that bow their knee in these final hours  
The blood on my hands is the blood on your head  
It's time to wake up!

I can see it in your eyes, you're already dead...  
I can see it in your eyes, you're already dead, I can see it in your eyes!

The picture of being bound by nails  
Is now coming with fire  
The devil's horns are mistaken for peace  
Complacency will be our downfall

Condemn the ignorance that we are forced to believe  
The blood on my hands is the blood on your head  
It's time to wake up!

Fearless in the the face of death  
The devils work is never done  
Fearless in the face of death  
You see the storm and ignore the war  
Welcome to the new world horror

Just know that I'm standing with lions  
And we're ready for war  
Just know that I'm standing with lions  
And we're ready for war  
Ready for war!

So, what the hell are you gonna do?

I can see it in your eyes, you're already dead, I can see it in your eyes!

Just know that I'm standing with lions  
And we're ready for war  
Just know that I'm standing with lions  
And we're ready for war
