SPIT

Impending Doom

It's time to swallow my pride and spit the poison from my life

Deep down I feel you suck the life out of me
All the time that I waste is feeding my misery
I have to walk away and disconnect from everything

No one in hell wants to be alone
No one in hell wants to be alone

We are all dirt
We are all dirt beneath God
So who the hell do you think you are?

It's time to swallow my pride and spit the poison out of my lif
e
Spit
Spit
Til my last dying breath, I will never let you drag me under

Til my last dying breath, I will never let you drag me under
Til my last dying breath, I will never let you drag me under
Til my last dying breath, I will never let you drag me under

Spit you out
Spit you out
