One Day

Imperia

I try to survive
Murder attempts and abuse
By them

In different kind of ways

Because I fight
To get my child out of their grip
Because I fight
To get my child out of their crime

Every time I nearly lose my breath
Nearly lose my breath

One day
We will be together
One day we will be free
We will be free

So far I survived
One day
No more abuse
No more violence

Every time I nearly lose my breath
Nearly lose my breath

One day
We will be together
One day we will be free
We will be free

One day
We will be together
One day we will be free
We will be free

I hope they will stop now
I wanna live in peace
That this kind of things is in the world

Every time they beat me down
I stand up again
I stand up again

One day
We will be together
One day we will be free
We will be free

One day
We will be together
One day we will be free
We will be free

One day
We will be together

One day we will be free
We will be free

I hope one day
We will be free
One day
One day
