

Only A Dream

Imperia

My life was like a dark cold night
Where you were the only illuminary warming light

My dream was to see you smile
But when I open my eyes
I see, you're not there

But when I open my eyes

Those are lightning blue eyes
As bright as twinkling stars in the sky

I miss to hold your hand
And hold you safe in my arms
Close to my heart
Your presence made me feel alive

But when I open my eyes

Those are lightning blue eyes
As bright as twinkling stars in the sky
Those are lightning blue eyes
As bright as twinkling stars

Your sweet voice
Is echoing in my ear

Whenever I saw your face
My whole heart got filled with grace
Your presence made me feel my life alive

This was the best dream I ever had

Those are lightning blue eyes
As bright as twinkling stars in the sky
Those are lightning blue eyes
As bright as twinkling stars in the sky

Only a dream
