Queen Of Light

Another life into another world All innnocent in child's eyes As pure as water from the riversides Is the love for an unborn angel

And she's the Queen of Light, with her might The Queen of Light

Dancing with flames in the dark A red sky, heaven is bleeding Taken a life, given an angel The Queen of Light

And she's the Queen of Light, with her might The Queen of Light

My child I will not let you down Know that you are safe with me No tears of sadness my dearest, only of joy I will protect you with my life Till I'm surrounded by darkness Until then, I'll be watching you

My unborn angel, Queen of Light My unborn angel, Queen of Light

Hei lille venn Gret ikke jeg skal trmste deg for alltid. FOR ALLTID
