

All the Same

Imperial Teen

you're so safe you're in my mind
far for only half the time
you're so safe you're in my mind
far for only half the time

what if we never mean to meet again
i could breath in my seat again
you will find and never have enough
peace of mind to ever like breath

i don't' explain and ought to know
i can't wait it if you're too slow
now i'm playing in the scene
sayin what was always meant to you

look at you on the scene again
bother new feelin better than
second hand second string and you
..been way of ringin and then
i can't explain every moe
i can't wait so take it slow
now i'm playin in the sin
say you what was always meant to you
to you

you're so safe you're in my mind
far for only half the time
you're so safe you're in my mind
far for only half the time

what's been ..what's been done
we've had our fights and had our fun
brand new suits we ..of vagon..with you
with you

you're so safe you're in my mind
far for only half the time
you're so safe you're in my mind
far for only half the time

you sayin what was always meant to you
you sayin what was always meant to you
