

I Think That's Everything

Imperial Teen

[Verse 1]

I gave you up, I gave you down
I gave you near and far
I'm not sure what I could have said
A silence in the car
There's nothing left to bring
The castle left the king
Another season not enough
The salt without the sting

[Verse 2]

You wrote the play I take apart
You're taking it to heart
To take the pleasure out of pain
The horse before the cart
You tried to rein it in
To place is not to win
A race without a finish line
A time to sink or swim

[Chorus]

I think that's everything
I think that's everything
I think that's everything
I think that's everything

[Verse 3]

A flash of light, a burst of flame
The shooting of the star
Another player in the game
To heal without a scar
Mistake the best of me
For what I used to be
There's no more us or you or me
'Cause we were everything

[Chorus]

I think that's everything
I think that's everything
I think that's everything
I think that's everything

[Outro]

I think that's everything
I think that's everything
I think that's everything
That's everything, that's everything
I think that's everything
That's everything, that's everything
I think that's everything
That's everything, that's everything
I think that's everything
That's every-
