

Our Time

Imperial Teen

Yeah we are dancing tonight
Under a strawberry light
And its our time

All the girls are dressed in leather
And the boys are wearing feathers
It's our time

And we will blow
Until it glows
It's on fire!

We are fighting the fight
A libertarian plight
And its our time

Heavy metal in the sound
And there's still an underground
it's our time

And we will blow
Until it glows
It's on fire!

We're below
The undertow
We're for hire!

You can wear what you want
You can say what you want
'Cause it's our time

All the little girls sway
It's a holy holiday
And it's our time

We are dancing tonight
Under a strawberry light
And its our time

All the girls are wearing feathers
And the boys are dressed in leather
It's our time

undertow
We're below
We're for hire!

We will blow
Until it glows
It's on fire!

Hey, jump the line!
This is our time
Don't look behind
