

Atomic Age

Imperial Triumphant

I wanna take you away
I wanna hear you say
That you will be mine, from now until all time
I'll love you til the end of the world

Automatic expulsion
Full spectrum exposure
Blessing from above
A new clean start

Vexed is the droid
Whose senses guide it astray
Vexed is the droid
Asking from whence it came

Thousands dance
In the rings of fire
Arms raised with vigor
For Uranium's embrace

Vexed is the droid
Whose senses guide it astray
Vexed is the droid
Asking from whence it came

Black spooling sickness
In the radiance of a thousand suns
No memory of what is to be
No memory of what we will achieve

Astonished brilliance
Fission divided
Immaculate destruction
Extinction perfected

All will fade
Enough time given

Atomic age
Vexed is the droid!
