

# Live Heart Die

## In Fear and Faith

I, I want you, to save us from,  
What we've become...

Oh my God!  
Somethings gone terribly wrong,  
And I can't find a way...

(Can someone...)

My heart,  
Is racing faster

(Save us from...)

We've tried so hard,  
And lost control

(Save us from,  
What we've become...)

So this beautiful dream,  
Has become an empty promise  
A stranger haunts us in our dreams  
We're terrified,  
We're terrified.

You're the only one who knows this,  
(I tried to tell you everything)  
And I hope you die with this on your lips!

Oh my God!  
Somethings gone terribly wrong,  
And I can't find a way...

(Can someone...)

My heart,  
Is racing faster

(Save us from...)

We've tried so hard,  
And lost control

(Save us from,  
What we've become...)

Can someone,  
Save us from,  
from what we've become?

Can someone,  
Save us from,  
from what we've become?

Can someone,  
Save us from,

from what we've become?

You're the only one who knows this,  
(I tried to tell you everything)  
And I hope you die with this on your lips!

You're the only one who knows this,  
(I tried to tell you everything)  
And I hope you die with this on your lips!

Your lips,  
Die with this on you lips!
