

No Chance

In Fear and Faith

Here I am
Above the world
Sitting here waiting for nothing

I'm on my way
No day to lose, I can see
Everything from you
Around the light,
Stars shine so bright

And now they end,
In one last breath
Bite my lip,
And close my eyes

Save me,
I'm falling faster to the ground
Catch me,
I'm falling faster,
Faster to the ground
Save me,
I'm falling faster,
Faster to the ground

To the ground,
To the ground
I'm falling faster to,
To the ground,
To the ground,
To the ground

Save me,
I'm falling faster to the ground
Catch me,
I'm falling faster,
Faster to the ground
Catch me,
I'm falling faster,
Faster to the ground
Save me,
I'm falling faster,
Faster to the ground

To the ground,
To the ground
I'm falling faster to,
To the ground,
To the ground,
To the ground

Save me,
I'm falling faster to the ground
Catch me,
I'm falling faster,
Faster to the ground
Catch me,
I'm falling faster,

Faster to the ground
Save me,
I'm falling faster,
Faster to the ground

To the ground,
To the ground
I'm falling faster to,
To the ground,
To the ground,
To the ground

The stars up in the sky,
Won't shine so bright tonight
The stars up in the sky,
Won't shine so bright
The stars up in the sky,
Won't shine so bright tonight
The stars up in the sky,
They won't...

Shine

Won't shine so bright
They won't shine so bright
Won't shine so bright
They won't shine

Won't shine so bright
They won't shine so bright
Won't shine so bright
They won't...
