

# The Chase

In Flames

The chase  
A wild one  
Has to become  
Figuring out where you need to be  
Find the pulse  
Into with all you see  
It's in front of you  
Every other way  
Leads to the same old great wall

Hit first with the speed of light  
I won't be showing songs of me

In vain  
Sometime  
I'll find right where I belong  
A life that was meant to be  
Have faith in me

Sometimes it's hard to believe  
The stories remain  
I should just force right through  
I guess it's for a reason  
we waiting in line at the station

Hit first with the speed of light  
I won't be showing songs of me

In vain  
Sometime  
I'll find right where I belong  
A life that was meant to be  
Have faith in me  
Have faith in me

Hit first with the speed of light  
I won't be showing songs of me

In vain  
Sometime  
I'll find right where I belong  
A life that was meant to be  
Have faith in me
