

Inertia (The Hermit)

In Hearts Wake

You always had everything that I've ever wanted, and I still seem to have
these thoughts—they are running, running, running. My body, my mind and my
will—I've had it—and I always will, I always will. And I will always stay.
Take time move forward, take time move forward...for what?

I'm only now beginning, to see life differently. The visions I've had are
still always calling, calling and calling. I'm searching and I'm finding
my way, so I follow my heart—I always will, I always will. Take time move
forward, take time move forward...for what?
