

She's dancing alone in the dark
As flirting in silver silence
Her movements conducted by heart
You wouldn't notice the salt on her sleeves...

A shadow - her only consort
The one thing she does confide in
Together she's dancing alone
With fearful verve to get rid of her own...

And oh, she sighs...
Memories of joy are passing by
And with a twist, she turns around
But shadows follow wherever we go

You can dance away your woe all alone
And welcome sunlight after years on your own
But when the beauty hits the dark side of your soul
You'll see: We're incomplete when all alone
We're incomplete when all alone...

Oh, smooth and light
Clinging to the shadow left behind
She's trying to make him her guide
As she loses her poise falling into the void

You can dance away your woe all alone
And welcome sunlight after years on your own
But when the beauty hits the dark side of your soul -
Realise - our life's duality...
That I am incomplete when you're not with me...

Watch her dance
Her sad romance...

Won't you set me free and turn my elegy
Into a duet of you and me with one melody?

Don't dance alone!
Welcome sunlight after years on your own!
But when the beauty hits the dark side of your soul...
We're incomplete when all alone!
You can dance away your woe all alone
And welcome sunlight after years on your own
But when the beauty hits the dark side of your soul -
Realise - our life's duality...
That I am incomplete when you're not with me...
Yes, I feel incomplete when you're not with me
