

Envoys Of Peace

In Legend

So do you take your stand?
Make your choice!
Stop others to command?
Raise your voice!
Take action on their needs?
In life rejoice!
Bring up their dirty deeds
Come make some noise!

'Cause ain't we all the same?
So we are!
In all the things we claim?
We concur!
Come on, lead off our fight!
Fight!
There ain't no choice - We got to raise our voice!

Down on your knees
When love is our language
Our words are envoys of peace
Speak up for those
Who never got a chance see that there is
Matter in all our hopes

They cannot bring us down!
Bring it on!
'Cause we're not alone!
We stand as one!
We got a given right!
Right!
Corrupt and Fucked - Let's make them hear our voice!

Down on your knees
When love is our language
Our words are envoys of peace
Speak up for those
Who never got a chance to see that there is
Matter in all our hopes

Unleashed and free
We'll never be silenced
Got a voice and therefore we speak
Stand up for those
Who never got the chance to feel
What it's like when you're
Out of control

Down on your knees
When love is our language
Our words become envoys of peace

Down on your knees
When love is our language
Our words are envoys of peace
Speak up for those
Who never got a chance to see that there is
Matter in all our hopes

Unleashed and free
We'll never be silenced
Got a voice and therefore we speak
Stand up for those
Who never got the chance to feel
What it's like when you're
Out of control

Down on your knees!
Will you speak up for those?

Down on your knees
When love is our language
Our words become envoys of peace
Speak up for those
Who never got a chance to see that there is
Matter in all our hopes
