

# Monuments For Eternity

**In Legend**

Borders you have brought into my world  
Separating hearts once used to form a pair  
Redefining bonds in favour of yourself  
Add corners to a circle to straighten up the square

The family you're in makes you believe  
That you're righteous acting all along  
Your needs, no matter right or wrong -  
No!

Respect  
Accept  
That we belong here, too  
No fronts  
No bounds  
Can change the fact that we're alive  
Respect  
Accept  
We'll never pass from view  
No fronts  
No bounds  
Are built on everlasting ground

Oh - ain't we the same?  
I never cared about the jerks wearing a crown  
But I have seen a million lies  
Of a billion in disguise  
Rating people as a property they own

Fucked up lies  
In disguise - come on  
Never live up to  
Unfounded statements of grounds

Respect  
Accept  
That we belong here, too  
No fronts  
No bounds  
Can change the fact that we're alive  
Respect  
Accept  
We'll never pass from any view  
We're the monuments for eternity!

Sing it  
Come sing along  
Lalala...

Respect  
Accept  
That we belong here too  
No fronts  
No bounds  
Can change the fact that we're alive  
We're the monuments for eternity!
